## Critical Care Volunteers Are Needed in Israel

In light of the ongoing situation in Israel, the Israeli Ministry of Health is building a list of medical personnel from abroad to volunteer in Israel should the need arise. This [call for volunteers](#) is authorized by Charles Sprung, MD, JD, MCCM, working with the Israeli Ministry of Health, and SCCM CEO/ Executive Vice-President, David J. Martin, CAE.

**Do not travel until you receive information from an Israeli Ministry of Health official.**

**Applying to volunteer does not commit you to actual participation.** You will be contacted directly if needed. At that time, the location of your volunteer service and logistic issues will be clarified, such as housing and travel.

**Please email Dr. Sprung at [charless@ekmd.huji.ac.il](mailto:charless@ekmd.huji.ac.il) once you have submitted the volunteer application.** He will coordinate and expedite your application with the Israeli Ministry of Health.

Once you have submitted the volunteer application, you will receive an email requesting that the following documents be sent to [medicalvolunteersforisrael@moh.gov.il](mailto:medicalvolunteersforisrael@moh.gov.il):

- Passport
- Medical license

Your consideration of this appeal is very much appreciated.
